### High Security Check Features

Combat check fraud with High Security checks. Endorsed by bank security and loss prevention officers, High Security is available in style BA single or duplicate format and is designed to effectively deter counterfeiting, duplication, alteration, and even chemical washes that remove handwriting.

Three-To-A-Page Checks

**Warning Band** — calls attention to features that help verify check's authenticity

**Prismatic Multicolored Background** — attractive, woven pattern; colors become distorted when photocopied

**Invisible Fluorescent Fibers** — confirms document authenticity when viewed using black (UV) light

**Anti-Photocopying Dot Pattern** — A pattern of dots that helps imaging software within enabled colored copiers from reproducing the check face image.

**Thermochromic Heat-Sensitive Icon** — heat-sensitive mark disappears when warmed, allowing immediate verification of authenticity

**True Watermark** — when held up to a light, safety paper shows a pattern which can't be scanned or copied

**Foil Hologram** — 3D embedded graphic foil provides additional protection against check duplication
