

Use High Security Checks to Protect Your Business

Help Prevent Small Business Check Fraud From the Start

Financial institutions can help protect small business account holders from becoming victims of check fraud. High security checks offer protection from check fraud at a competitive price.

FACT: Check fraud continues to be the leading type of business payment fraud.¹

FACT: 60% of businesses were the targets of payment fraud last year.¹

FACT: The typical loss due to payment fraud is more than \$20,000.¹

FACT: Small businesses share the responsibility of taking actions to prevent check fraud.²

Small businesses count on their financial institution to help protect their assets. Our manual and laser high security checks have **more than 26 security features** designed to give you peace of mind and assist in reducing check fraud associated with check washing, check forgery or check copying.

To learn more about the check security features, visit harlandclarke.com/highsecuritycheck.

Warning Band — calls attention to features that help verify check's authenticity

Prismatic Multicolored Background — attractive, woven pattern; colors become distorted when photocopied

Invisible Fluorescent Fibers — confirms document authenticity when viewed using black (UV) light

Thermochromic Heat-Sensitive Ink — heat-sensitive mark disappears when warmed, allowing immediate verification of authenticity

True Watermark — when held up to a light, safety paper shows a pattern which can't be scanned or copied

Foil Hologram — 3D embedded graphic foil provides additional protection against check duplication

Dot Pattern — embedded technology reduces the chance of photocopying the check for counterfeiting purposes

MobileMarkSM — indicates mobile deposit when checkbox is marked

Chemical Wash Detection Box — area that shows brown or stain marks that indicate chemical tampering

Security Warning Box — lists security features and their warning indicators

MobileMarkSM — Mobile Deposit check mark to indicate check has been deposited via mobile device.

Security Features Include: TRUE WATERMARK PAPER, HEAT SENSITIVE ICON AND FOIL HOLOGRAM.
